Two Feather Solutions, LLC

Native American-Owned | SBA 8(a) Certified | EDWOSB | Oklahoma City, OK
DUNS: 059954756 | **UEI:** SVCZLBPWGAN3 | **CAGE:** 9YR08 | **EIN:** 863219358

Contracting Advantages

As a **Native American-Owned SBA 8(a) Certified** and **Economically Disadvantaged Women-Owned Small Business (EDWOSB)**, Two Feather Solutions offers agencies:

- **Sole-Source Awards** – Up to $4.5M for services without full competition (FAR 19.805-1).
- **Set-Aside Eligibility** – Streamlined competition within 8(a) and EDWOSB pools.
- **Expedited Procurement** – Faster award timelines, reducing acquisition lead time.
- **Credit Toward Socioeconomic Goals** – Supports agency small business utilization metrics.

Core Competencies

Cybersecurity & Compliance: Zero Trust, CMMC readiness, FedRAMP, STIG compliance, secure software lifecycle.

Cloud Migration & Optimization: AWS and Azure GovCloud migrations, modernization planning, cost/performance optimization.

Data Analytics & AI/ML: Predictive analytics, automation, and real-time dashboards for mission-critical decision support.

System Modernization & Integration: Secure integration of cloud-native and legacy systems to enhance mission effectiveness.

Custom Software Development: Agile, full lifecycle solutions for web, mobile, and desktop tailored to agency missions.

IT Support & Sustainment: Long-term operations and maintenance help desk services, and user training to ensure system reliability.

Differentiators

- **Proven DoD Performance** – Decade-long history supporting mission-critical Air Force applications.
  - Over 55 successful releases for mission-critical Air Force systems
- **Rapid Deployment Capability** – Delivered operational solutions under extreme time constraints.
- **Security-Cleared Staff** – Leadership holds **Active Secret Clearance** for immediate access to secure environments.
- **Cloud Migration Expertise** – Led one of the first Air Force systems into AWS GovCloud.
  - 4+ years of cloud migration experience
- **Cybersecurity Modernization Expertise** – Deep experience with CMMC readiness, FedRAMP-compliant GovCloud migrations, and DISA STIG compliance.

Past Performance

Air Force Web Application: Developed, maintained, and enhanced a mission-critical system supporting 2,000+ users.
FAA Web Tools: Built secure web-based tools to streamline aviation data processing and compliance reviews.
Financial Systems Development: Delivered enterprise-scale solutions for regulated mortgage, tax, and utility sectors.
Compliance Database: Designed compliance tracking solutions for national and international regulations.
Real-Time Monitoring Application: Created and deployed a live Tinker Air Force Base traffic and wait-time monitoring system under an emergency 3-day time constraint.
